and Master Workman and His Friendy Associates Retire from the Executive lears, but the General Assembly Refuse o Accept Their Resignations—Balley Con-

[SPECIAL TO THE EVENING WORLD.] INEAPOLIS, Oct. 18.—There is no doubt Mr. Powderly is very much disgusted at he factional fight which is obstructing the ess of the Knights' convention. His cermined course yesterday afternoon shows his. After a day of ceaseless discord, Powderly, and all the other general officers, etting in accordance with a resolution proposed by Delegate Archibold, of District assembly No. 49, New York, tendered their resignations except Messrs. Barry and Bailey, who declared that they would not resign until action should be taken by the convention concerning the charges they had preferred against the other general officers. This was a scheme of Powderly's to get arry and Bailey out of the Board without fuss, but it failed. The Laights' organization was without a head for three hours last evening. Mr. Powderly having abdicated the General Master Workmaning and Chairmanship of the General Assembly. But just before adjournment the convention, upon a motion offered by John A. O'Neill, of District Assembly No. 160, Prenton, refused to accept the resignation, and endorsed the actions of Mr. Powderly and those members of the General Executive Soard who had resigned.

Thus the general officers are still retained in their positions, and with them Messrs. Burry and Bailey, notwithstanding the great afforts that were put forth yesterday through a series of amendments to the constitution roverning the tenure of the general officers to accomplish their removal. One of these mendments, if passed, would have abolished the entire General Executive Board except the General Master Workman himself, and another would have required an annual election of officers after next year's session of the General Master workman if Messrs. Barry and Bailey are retained on the Board. Bailey is very bitter in his remarks on the foor of the convention at every opportunity. At last Powderly will do. His friends have missted all along that he will not serve as General Messer Workman if Messrs. Barry and Bailey are retained on the Board. Bailey is very bitter in his remarks on the foor of the convention at every opportunity. At last Powderly endered his resignation. He was at once followed by General Secretary Litc ined course vesterday afternoon shows After a day of censeless discord, Powderly, and all the other general officers,

cause they could not do so under the present conditions.

The result was that the adherents of the administration had no alternative left but to vote against the acceptance of the resignations that they themselves had demanded. On this again there was no call of the roll. As a climar to the stratagem a vote of confidence in the membership of the Board who had submitted their resignations was submitted and carried with about thirty delegates shouting "No!!"

In brief the charges made by Messrs. Balley and Barry against the other general officers are usurpation of power and intense of the officers' money. In his speech yesterday afternoon Bailey and that the dissensions between the members of the Board first occurred when he and Barry called the attention of Mr. Powderly to his misdoing, and that for doing this they had incurred Mr. Powderly's enmity to such a degree that he desired to accomplish their removal. Concerning Mr. Powderly's explanation of the O'Reilly mission he dealered that the General Master Workman had practically acknowledged that he had done wrong in the matter. A sum of \$500, he said, had been advanced to General Becretary Litchman by Mr. Powderly from the treasury of the order last fall to buy a printing press for Mr. Litchman's derly from the treasury of the order last fall to buy a printing press for Mr. Litchman's son in Marblehead, and this money had not been refunded until July last. A glance at the accounts of the order, he added, would show that it was not paid back until after Mr. Litchman had received payment for a large bill of printing.

The feeling among the delegates to-day is very bitter and relations are very strained year bitter and relations are very strained for this matter has been disposed of the MILIER RESERVANCE OF CHY.

The routine of business will now be disposed of with a rush and the General Assembly may adjourn to-morrow.

Further particular flow, New York.

Board of Director of

Funeral of Father McCabe.

The body of the late Rev. Thomas A. McCabe, chaplain of the mortuary chapt at Calvary Cemetery, who died of rheumatism of the hearf on Saturday, will be taken from his late home at Calvary to St. Pattick's Cathedral late this afternoon. It will life in state in the north tower of the Cathedral this evening and to-morrow morning. At 10 o'clock to-morrow morning the office of the dead will be chanted. Solemn high mass will be celebrated by the Rev. John Henry, of Newburg, as deacon and the Rev. Henry Gordon, of Harlem as sub-deacon. The culogy will be delivered by the Rev. Father Lavelle, rector of the Cathedral. Interment will be in Calvary Cemetery. A MERCHANT PRINCE'S LOT.

Now a Well-known and Promisent Man Travelled Four Thousand Miles to Find the Object of His Search at His Own

the Object of His Search at His Own
Beer.

Br. L. Z. Leiter, a retired member of the firm of Field, Leiter & Co., of Chicago, has passed through an apperience which, in its nature, is far too common with many other prominent men and women. Mr. Leiter had a child that, although the greatest sare was exercised, gradually faded, became puny and fell into a decline. Alas! there are many beenes in which the same experience is being enacted today. Persessed of ample means, Mr. Leiter determined its exacult the most colebrated physicians in the world, and hence took his child to Paris. The eminent French dector whom he consulted, thinking Mr. Leiter was an linguishman, after a careful examination, said:

"Your child needs no medicine and cannot be helped by drags. But if you have the means and time and can gue to America, there is a wonderful apring in that land, the water of which will, I am sure, rectore your child to benith. All the leading physicians of Europe know of this wenderful apring, are aware of its remarkable qualities, and know that for all discasses of the hidneys, bladder and urnary organs, or for delicate woman and feeble children, nothing can be compared with it. Indeed, it is really the only water known to resonate which, while possessing almost marvel-leading powers, is pa'atable, olear as crystal and any he truely drama.

"Betheseds." replied the doctor.

Frofiling by the advise he had travelled over four thousand nelles to secure, Mr. Leiter returned home and always the first of the said have confirmed as lowed his oldid to drain freely of Betheeds. In a few words a complete cure was effected and the child became your and well. These are no ilde facts, but he had not seen and the secure of the said world in continued as a secure of the said have confirmed as a secure of the said world in continued as a secure of the said world in continued as a secure of the said of

JAKE SHARP TO BE FREED.

Another Important Stay Secured -Tremendous Excitement

> in Both Legal and Boodle Circles.

ALBANY, Oct. 17 .- Important and authentic news has ast been received from Albany that places an entirely ew complexion upon the Jacob Sharp case. It has been all known for some time past that Sharp's friends and

old man's progress towards Sing Sing, and if money, influence and legal talent could do it, to finally free him suntirely.

It is a well-known fact, despite the superficial axamination and the adverse report made by the physicians sent by Mr. Martine to examine Sharp, that he is a very ill man, suffering not only from a peculiar and exhausting disease of a nervous and cerebral origin, but also from saccharine diabetes, also a nerve disease, although having its principal manifestations through the kidneys. One year in Sing Sing to Sharp in the present condition would mean almost certain death, and would be equivalent to ten years to a perfectly healthy man.

There can be no question from the startling facts in our possession but that there is a strong and determined effort being made to free flaary entirely, not from Sing Sing, but from this terbeing has deserted in the properties upon the form the strong has deserted in the properties of the strong and determined effort being made to free flaary entirely, not from Sing Sing, but from this tobbing himse disease and appearing upon the onesses nervous energy. His doctors, we are assured, have at least laid saide all prejudice and have consented to the use in his case of Dr. Buckland's Section Oats Essence, which has been urged upon him by almost every friend and every member of his family. Every great remedy, every great discovery, has, as history teaches us, met with the most deeded upposition from the very men who should have been the first to recognize their value. Jenner, the of his profession for many years.

The majority of the medical profession have accepted Societh Oats Essence as the greatest nerve and brain tonic, as well as remedy, ever discovered. Some few so-called specialists still hold out against it, but they will have the proofs hammered into their heads by the hardest kind of facts before long.

If Sected Oats Essence acts as well in Sharp's case as it has done in those of thousands of others, many mach worse than his, a stay is certain, and he
